Programmlänge: August 2024 – Juni 2025

Hobbies: Reisen im Wohnmobil, Musik hören, wandern, Sightseeing in Museen und historischen Gebäuden, spätes fahren, schreiben, shoppen, Videobearbeitung, Katzen und süße Tiere streicheln

Allergien: Nein

Vegetarier: Nein

Placement: München

Liebe Gastfamilie!

Ich bin Olivia! Ich lebe in Südfinnland. Ich bin 16 Jahre alt. Ich habe eine Katze. Ich würde gerne nach Deutschland um neue Sachen zu lerne. Ich freue mich!

I want to go to Germany for exchange because I have heard from many friends that Germany is an excellent country in terms of education and there is a bunch of nice & welcoming people. Germany has many beautiful places I would like to see with my own eyes. I want to experience the interesting culture of German people. I am of course also interested in a lot of the historical buildings and the nature there in Germany. I have a strong desire to learn the language properly while I am on exchange. I wish to get to know the various kinds of people I meet to broaden my view on culture and life in general. My biggest goal is to learn as much as I can in every way during my exchange. I think that Germany is an extremely promising country choice for all that I want to see, learn and experience.

I am a fun-loving- introvert. I see myself as both a realist and optimist. I feel proud of my personal self-awareness and ability to resolve problems even when difficulties occur. Others often tell me they see me as a reliable, thoughtful, determined and shy person. I feel my inner emotions deeply. I don't have a problem talking about how I feel as well as listening to others' views on things. I love to go along with my friends' spontaneous plans, and I usually take the role of the one that makes sure everything goes smoothly & safely. As an introvert I have a little bit of trouble being the initiator of conversations and I hesitate for some time. After a push from friends or myself it becomes easier for me to have assurance in my actions thus allowing me to properly adapt to whatever situations are at hand.

I love to go sightseeing in cities and nature with my family. I hope to do that with my host family as well. My mom and I often go to historical museums. Whenever there are celestial events happening, I observe and stargaze them together with my dad. History and astronomy interest me. On the weekends my family relaxes by watching movies together. I wish to teach my host family about Finnish traditions, music and culture. I would love to bake some Finnish sweets together. I hope that my host family will also introduce me to their culture and traditions.

My hobbies are listening to music, going on walks and writing occasionally. On my free time I either hangout with friends or do stuff with myself. When I am with my friends, we usually go around town, shopping, walking, and sometimes we play board games, do sporty activities together like badminton etc. When I spend time alone, I usually take walks where I photograph the views whilst listening to music. On the weekends I take it easy, have movie nights with my family or go out with friends.

I help my parents with whatever chores they ask me to do like emptying the dishwasher, putting clothes to dry, taking the trash outside, setting the table, etc.

On my usual day I wake up at 6:40, begin school at 8:30, focus on my studies, talk with my friends during lunch, head home at 14:45, eat food at home, do my homework and then have my free time.

Dankeschön!!

Yours sincerely, Olivia
